

SIDE EFFECTS?

**DID
YOU?
KNOW!**

Smoking can make your
meds less effective. And
needing more meds can lead
to more side effects.

WANT TO FEEL BETTER?

**SIDE
EFFECTS**

Smoking can result in having to increase your medication, making your side effects sometimes double.

Everyone knows that smoking causes all sorts of terrible diseases. But many don't know that it can also decrease your body's ability to process medications, making it necessary to take more than if you didn't smoke.

Best chances of keeping side effects under control?

Stop smoking.

We'd like to help you.
