please visit sanduskyohiocedarpoint.com

The target audience will be respiratory therapists, nurses, healthcare students, and physicians. After attending the seminar, participants will be able to:

- Identify current guidelines and developments in the management of COPD.
- List the basic principles of medical ethics, current issues, and the implications for clinical respiratory care.
- Describe the process used by the Board of Nursing to take disciplinary action against one of its licensees.
- Describe the current diagnoses and treatment for lung cancer.
- Discuss tobacco dependence, related pulmonary harm, and pharmacological tobacco cessation strategies.
- Review Current nutritional prevention and treatment guidelines for pulmonary disease.

**Criteria for successful completion includes attending the entire seminar, receipt of valid payment and turning in an evaluation form.
(No credits will be given to participants arriving late or leaving early)**
