

Looking beyond COPD

If you or a loved one has Chronic Obstructive Pulmonary Disease (COPD), you may be interested in this clinical research study.

This study is testing the benefits of an investigational drug in reducing lung and heart complications in people with COPD.

Individuals may qualify for this study if they:

- **Have a diagnosis of moderate COPD (sometimes called emphysema or chronic bronchitis)**
- **Have a history or risk of heart disease**
- **Are 40 to 80 years of age**
- **Are a former or current cigarette smoker**

Participation will also depend on other requirements.

Study participants may receive study drug and study-related medical care at no charge. Reimbursement for time and travel may be provided. Health insurance is not necessary to participate.
