

WE ARE A **FORCE** TO BE RECKONED WITH

2014 ANNUAL REPORT

AMERICAN LUNG ASSOCIATION OF THE NORTHEAST

The American Lung Association is the leading organization working to save lives by improving lung health and preventing lung disease through Education, Advocacy and Research. As a fiscally responsible charity, we are committed to being the best possible stewards of donated funds. We are dedicated to honoring donor intent and practicing financial transparency.

Lung Cancer is the leading cause of cancer death in the United States.

We deliver support to patients, caregivers, survivors and medical professionals. We advocate for better diagnosis, treatment, and a cure.

Lung disease is growing at a rate faster than other major diseases.

We support research to prevent, manage and find cures for lung cancer, COPD, asthma and all lung disease.

Air pollution poses a serious threat to our nation's health; unhealthy air is hazardous to our families and can even threaten life itself.

We defend the Clean Air Act to ensure that all Americans can have air that is safe and healthy to breathe.

Big Tobacco spends billions of dollars each year to addict our kids to their products.

We fight the tobacco industry using advocacy and education in communities, State Houses and in Congress.

Financial Highlights 7/1/13 - 6/30/14
