

August 16, 2018

The Honorable Andrew Wheeler, Acting Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, NW
Washington, DC 20460

Submitted via Regulations.gov

RE: Comments on Proposed Rule "Strengthening Transparency in
Regulatory Science" Docket No. EPA-HQ-2018-0259

Statement from 5,931 individuals from all 50 states, the District of
Columbia, and Puerto Rico:

I call on EPA Acting Administrator Andrew Wheeler to withdraw this
proposal to censor science. EPA already relies on transparent science to
make its decisions. The proposal will not improve this process. Instead,
it would allow the agency to censor critical health studies that show the
health impacts of air pollutants.

My family depends on EPA's national air pollution limits to protect our
health. If EPA ignores critical health studies on the impacts of air
pollution, we will not have safe air to breathe.

Signed by the individuals listed below:
