

August 16, 2018

The Honorable Andrew Wheeler, Acting Administrator  
U.S. Environmental Protection Agency  
1200 Pennsylvania Avenue, NW  
Washington, DC 20460

Submitted via Regulations.gov

RE: Comments on Proposed Rule "Strengthening Transparency in  
Regulatory Science" Docket No. EPA-HQ-2018-0259

Statement from 1,309 health professionals from all 50 states and the  
District of Columbia:

I call on EPA Acting Administrator Andrew Wheeler to withdraw this  
proposal to censor science. As a health professional, I understand the  
harms that air pollution has on patients and communities. These effects  
are documented by research that has already undergone a long-  
established, transparent review process.

Many of these studies contain confidential patient information that  
can't and shouldn't be made public. This is no reason to exclude those  
studies' critically important, well-vetted findings.

I am deeply concerned that EPA's proposal would allow the agency to  
censor these important health studies. Please withdraw this proposal.

Signed by the health professionals listed below:

## Alabama

Andrea Mathews, LPC  
Anne Brady, RM, MT  
Edward Markushewski, MD
