

Parents and Grandparents Letter to President Obama: Direct FDA to Protect Children from All Tobacco Products

April 23, 2015

The President
The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500

Dear Mr. President:

We write to you as parents and grandparents who want to protect the health and well-being of our children and grandchildren. We educate our kids about the dangers of tobacco. Still, almost 1 in 4 high school students use tobacco. The reason is clear: the industry spends billions of dollars on marketing each year targeting children and teens.

We call on you to use all of your authority to safeguard all children from tobacco. Please direct the Food and Drug Administration to move forward with oversight of all tobacco products, including e-cigarettes and cigars and implement common-sense measures to stop the industry from targeting children.

For decades, the cigarette industry advertised with cartoons, celebrity spokespeople, candy-flavored products and misleading health claims to hook America's children. Today, e-cigarette and cigar companies are using the same tactics. The results are frightening.

High school boys now smoke cigars at the same rate as they do cigarettes, and e-cigarette use among high school students has tripled in just three years.

Please do not wait another day. Help us protect our children and grandchildren from e-cigarettes, cigars and all other tobacco products.

Thank you.

Sincerely,
