

January 31, 2022

The Honorable Michael S. Regan  
Administrator  
U.S. Environmental Protection Agency  
1200 Pennsylvania Avenue NW  
Washington, DC 20004

Re: Standards of Performance for New, Reconstructed, and Modified Sources and Emissions Guidelines for Existing Sources: Oil and Natural Gas Sector Climate Review Docket Number EPA-HQ-OAR-2021-0317 FRL-8510-02-OAR

Dear Administrator Regan:

The undersigned people signed to tell EPA to cut methane pollution from oil and gas operations.

It is time to:

- Strengthen the proposed rule to reduce methane pollution from new and existing oil and gas operations by 65 percent of 2012 levels by 2025. This is an achievable target, and one that can be met using existing technologies, at low cost.
- Strengthen requirements for smaller, low-producing wells; require more frequent leak monitoring and repair; and put an end to the practice of routine flaring (burning of waste gas that results in harmful air pollution.)

Signed,
