Thank You for your Leadership on the Women and Lung Cancer Research and Preventive Services Act (H.R. 2319)

Members of Congress:

We write today to thank you for your leadership on H.R. 2319, the Women and Lung Cancer Research and Preventive Services Act. We applaud the House passage of this long-awaited legislation and are hopeful that the Act can be signed into law this year.

We commend the leadership of the bill sponsors, Representatives Brendan Boyle and Brian Fitzparick, along with Senators Tina Smith and Shelley Capito Moore, in introducing bipartisan and bicameral legislation to address anomalies in lung cancer among women and advance research to better understand lung cancer pathology. Such research is urgently needed.

This is a historic achievement that takes us to the next level in the fight against lung cancer. Your support for this bill made all the difference and we are grateful.

Our organizations appreciate the opportunity to work with you on next steps to ensure the passage of this legislation. Together, we will usher in a new era in our fight to end cancer as we know it.

Sincerely,
Alliance for Women's Health and Prevention
