

You are invited to be an American Lung Association Lung Cancer Support Group Partner!

The Lung Association has decades of experience with in-person support programming for lung disease patients. We are looking forward to expanding our support group offerings to meet the unique needs of lung cancer patients and their families through Lung Cancer Support Groups.

There are multiple ways to support American Lung Association Lung Cancer Support Groups and in turn, provide much needed services to the lung cancer community.

For more information about partner opportunities, please contact

LungCancerSupportGroups@lung.org.
